Terrible Fate of Sixteen Miners at Angels Camp.

Camp.

San Andreas, December 23d.—Word has just been brought here that a terrible cave occurred in the Lane mine at Angels.

The camp is owned by flayward & Hobart. On Sunday at 3 o'clock sixteen miners were buried, and it is believed were crushed to death. If alive, there is but little hope of rescuing them, on account of the enormous amount of debris.

The cave was caused by the heavy rains soaking the earth, and the mine is said to have been improperly secured.

Great excitement prevails, as many of the miners are married and with families.

DEATH OF H. W. GRADY.

Demise of the Brittiant Young Editor of the Atlanta "Constitution." Atlanta "Constitution."

Atlanta (Ga.), December 23d.—Henry W. Grady died this morning at twenty minutes before 4 o'clock, after a short illness. He contracted pneumonia when he went to Boston on December 12th to deliver his great speech at a banquet given there. Since then he has been a very sick man, and the doctors had given up all hope for his recovery. His death was expected at any moment, and his mother was telegraphed for on Saturday, and was at his bedside when he expired.

PREPARATIONS FOR THE FUNERAL ATLANTA, December 23d.—At 2 o'clock in the sf.ernoon of Christmas Lay the funeral ceremonies will take place. The family has consented that the body shall rest in the First-street Methodist Church from 9 o'clock in the morning until the funeral hour. On Thursday special memorial services will be held at the new Capitol, at which all the people, the military and the societies of which he was a member will take part. To-day all of the Courts adjourned, and many of the city buildings are draped in mourning.

MESSAGES OF CONDOLENCE.

MESSAGES OF CONDOLENCE.

ATLANTA, December 23d.—Messages of condolence have been pouring in all dry from the North and South. Ex President Cleveland telegraphed Mrs. Grady as follows: "Accept the heartfelt sympathy of one who loved your husband for what he was, and for all he has done for his people and his country. Be assured that everywhere throughout the land warm hearts mourn with you in your deep affliction, and deplore the loss the nation has sustained."

Governor Hill of New York telegraphed as follows: "Please convey to Mrs. Grady my deepest sympathy in the loss of her husband. He was a noble and brilliant man, for whom I felt a warm friendship and the highest respect. The entire North will join with the South in lamenting the death of one whose services in the obliteration of sectional feeling has been so distinguished and so patriotic."

Among other telegrams were those from Samuel J. Randall, Emory Speer, Roswell P. Flower, Patrick A. Collins and Clinton B. Fiske. MESSAGES OF CONDOLENCE.

the intimidation of the voter or the laistication of the Court. [Cheers.] Fublic conscience,
seared by the approval of fraud upon the
ballot, the virtue and intelligence of the community, will soon be indifferent to the extension
of these methods by the present officer-holders
to continue in power, and the arbitrary reversals of the will of the majority will end in
anarchy and despotism. This is a burning
question, not only in Georgia but in New York.
It is that the Government for the people shall

OCEAN WHEAT CHARTERS.

Greater Shipments in Sailing Vessels than for Many Years. NEW YORK, December 23d.—There is a flurry here in the business of charting ocean tonnage for cargoes of wheat. The ship Garfield, owned by the White Star Line, just chartered to carry a mixed cargo of wheat and merchandise to London, will carry 100,000 bushels of wheat. The ship Scottish isles is another vessel chartered to resume the wheat traffic fight. She goes to Cork for o.ders, and will carry 75,000 bushels.

goes to Cork for o.ders, and will carry 75,000 bushels.

The other sailing vessels chartered to carry grain cargoes, all for Lisbon, are the Italian bark Colombo, 23,000 bushels; Norwegian bark Trio, 45,000 bushels; the Italian bark Teresinila, 24,000 bushels. These charters represent a greater shipment of wheat than has been sent away in sailing vessels at any one time for years. The owners of sailing property say the chartering will continue, but the steamship people insist the flurry is caused by the absence of suitable steam tonnage.

Desperade Robbers.

Terentum (Pa.), December 23d.—Shortly after 10 o'clock to-night three men broke into the jeweiry store of Paul Rutteit and were in the act of carrying off all the valuable stock when surprised by Mrs. Rutteit, who pluckily grappled with one of the robbers. She was getting the best of him, when one of the other men drew a revolver and blew the top of her head off. The noise attracted Rutteit, who was upstairs, but before he reached his wife she was dead and the thieves had fled with their booty. The murder created intense excitement, and large numbers are out searching for the thieves. The amount of valuables stolen is not known.

THE RIVER AND THE ENGINEERS.

There is a disposition among the army engineers to whom the treatment of the Sacramento river is committed, to do no considerable work in fortifying the banks of the stream. It has long been un derstood that these engineers do not be lieve in levee systems, because for one thing incidentally they reclaim lands. Yet, they all insist that if anything is done in comprehensive and systematic. Here is of the Sacramento river is a matter of reporter shortly after his arrival, and in rethe stream be put out of consideration, the importance of the stream as a drain-way is sufficient to demand its conservation by the Government, and that it may be given its full scouring capacity, and that its surplus flood waters may be carried off by artificial the break at this time. It could be done, the break at this time. It could be done, the had no doubt, but the expense would be doing damage to agricultural lands.

opposed to any other work being done upon the stream than such as will preserve its natural banks from injury, the removal of the snags that annually gather in the several reaches, and here and there a little dredging to remove suddenly-formed bars. It is accepted among scientific men that calls for fitness that involves special trainfore, that the river will be thoroughly examined or treated so long as the policy of the army engineers guides the Government. And this is said in no disrespect to such gentlemen. They are unquestionably conscientious in their conclusions and honest in the policy they are understood to advise. But it so happens that men equally as eminent in engineering science, and more competent by reason of special training, radically differ with them as to what should be done for the river. The people also immediately interested do not accept the doctrine that the navigation of the river is of small importance. It is of the highest importance in the development of the country, the settling of vacant land, the increase of desirable population, the prosperity of towns and cities, the augmentation of the taxable wealth of the State and the general business of the Sacramento valley. It is of the utmost importance to every interest in the State that the stream should not flood the low lands and periodically do us of dollars of damage to agricultural interests. We trust that the river convention will be called, and that right soon, and that the people who have interests at stake and the good of the State at heart, will express themselves emphatically in the matter of river restraint and restoration.

That whatever the Government may be induced to do will redound to the interests of land reclamation is but incident to the prime purpose. No one wants the Government to reclaim the lands of private owners; no one has or will ask that the Federal Government expend a dollar in reclamation of swamp lands. The Government can never afford to commit itself to any such policy. Yet it has improved, corrected and restrained and relieved the Mississippi, the Ohio, Delaware and many other streams, and the incidental result has been to enhance the value of bank lands. But no one has for that reason objected to river work that has been done. In fact, the Government cannot engage in any work of harbor construction, river improvement, drainway enlargement, shore protection, erection of public buildings or any other great work without giving higher values to private possessions within the influence of such work. If the Government is to withhold its hand from all public schemes that will result incidentally or directly to the benefit of private interests, it will never expend an-

other dollar in public works. Since the foregoing was written, the Sac ramento Board of Trade has held a meeting, and resolutions have been introduced looking to the convening of the Convention yesterday suggested by the RECORD-Union and above referred to. The resolutions, which appear in another column in full, have been laid over until next Thursday, when it is the intention to have a large meeting of the Board and a full discussion of the matter. It is to be hoped tourth to be made at the end of three years, that every member of the Board will be and the remainder in one, two and three 4 o'clock, police officers Crump and Higpresent at that meeting, and that all other y-ars. E. K. Alsip then introduced the subject of the River Convention suggested by him occupied several days in the work." in a communication to the Record Union "And after you shall have concluded a few days ago, and by this journal yesterday commended. After introductory remarks, he proposed the following resolu

tions:

Whereas, The Sacramento, Feather and San Joaquin rivers are the only navigable rivers in the State of California, and are the feeders too and drain an area of over 8,600,600 acres, which is a territory greater than the States of Massachusetts, Rhode Is and and Connect.cut combined. These rivers a few years ago were clear and beautiful streams of water, and steamers and sat ing vessels of over 1,000 tons burden plied up and down their channels the year round. And whereas, it has been through the neglect of the United States Government, allowing hydraulic mining to be carried on to such an extent that caused the filling of the beds of these streams so that in the winter they overflow their banks and destroy millions of dollars worth of valuable property, and endanger the lives of the inhabitants living along their borders. And in the summer months they are so shallow (through the filling of their beds) that a small steamer of 200 tons burden can scarcely a cend them, and their usefulness in a commercial sense has almost been destroyed, and will, if not remedied, become totally useless and unnavigable streams. Whereas, to restore these rivers to their former condition will require them to be leveed, canals to be made to carry off the surplus water in winter, and other improvements made to their channels that will be too great an undertaking for private capital; and as the streams are under the control of the United States Government, and through her neglect they are destroyed, it is but just that Congress should make the necessary appropriation to carry cut the needed inprovements of these streams. Therefore, be it Resolved, That the Board of Trade of the City of Sacramento ask and invite the counties of Butte, Yuba, Eutter. Colusa, Yolo, Solano and San Joaquin, and the Chamber of Commerce of San Francisco, through the Boards of Trade, or Board of Supervisors where there is no Board of Trade, of the various counties, to appoint a committee of not less than five from said counties to act with a like committ WHEREAS. The Sacramento, Feather and Se

cisco and the Board of Trade of this city, said committees thus appointed to meet in convention in this city at an early date, to memorialize and urge upon our Senators and Representatives in Congress to take immediate steps to seare an appropriation to carry out the objects of hese resolutions, knowing that Congress has used large appropriations to remedy and levee treams that were not nearly so important in the commercial point as the ones we will ask his appropriation for.

The further consideration of the resolutions was laid over until Thursday next, when a full meeting is desired, and every member of the Board is urged to be The question of the erection of the Post-

office building was then brought up. Post-master Stephens addressed the Board, and suggested that a larger appropriation will be necessary than is now provided or asked for in Congress, in order to erect such a structure as is needed and as the Government architect thinks essential. He said that the appropriation had been \$150,000. Of that \$40,000 had been expended for the site leaving \$110,000 for the huilding. Mr. site. leaving \$110,000 for the building. Mr. McKenna had now introduced a bill to inor the building, \$160,000. But that was not enough by something less than \$100, 000; that is, the Government architect thought at least \$250 000 should be ex-pended in the erection of such a building as is needed.

The matter was referred to a committee consisting of Joseph Steffens and F. B. Adams, to ascertain all the facts and repor hem to the Board in detail.

The Board appointed a committee t suggest twenty five names to be reported by the Board to the Trustees, by request, om which to choose fifteen freeholders to e nominated for the charter election. The Board then adjourned until Thurs-

THE WHARF FRANCHISE. Captain J. D. Roberts, of the Sacramento Transportation Company, appeared before the Board and presented a communication signed by the Huntington-Hopkins Company, Whittier, Fuller & Co., Richards & Knox, Booth & Co., Jones & Givens, and A. & A. Heilbron, asking to withdraw their protest against the granting of the proposed wharf franchise to the Transportation Company, on certain conditions.

Captain Roberts stated that the slips would be kept open for the use of the public, but the coal-bunkers would of course be permanent. There would be no difficulty in other shippers using the slips, as at

Mr. Holt, manager for the Friend & Terry Lumber Company, made a long and earnest argument in opposition to the granting of the franchise. He said it was asked for a term of fifteen years, but who would at tempt to forecast the future of this city for that length of time? Who could have foreseen the future of Seattle, Tacoma or San Francisco fifteen years ago? Sacramento is the center of a great territory. I was a growing place, and her people would need more river room. He denied that the opposition was prompted by personal mo tives. The effect of the franchise would be to place the handling of coal in the hands would give an advance of fifty cents a ton to the company holding the franchise. The city now has but 500 feet of public waterfront. Should Sacramento have 60,000 population in the near future, the merchants would have no shipping facilities. The transportation company would find it convenient to moor their barge to the wharf and thus shut other shippers out. The free use of the slips would be all right, but it a barge was moored in front f them for days at a time the slips would be of no use to the public. If a franchise were granted it should provide that on due notice the company should clear the slips so many hours. Each month 3 000,000 feet of lumber was handled on the river front, and any lessening of the facilities would be an injury to the city. Lumber had to pay taxes here, either in the shape of lumber or put up in houses. The coal that it is proposed to handle paid its taxes in Tacoma, and would bring no revenue to the city. The controlling interest in the transportation company is held by Ore-gonians, who do not live nor pay taxes in Sacramento. If natural gos should be found here there would be a building boom, and more lumber would be needed In conclusion, Mr. Holt said that the Friend & Terry Company would agree to build such a wharf as is asked for and pay the city \$50 a month for the use of it, and he would guarantee to find a coal company that would come here and open competition if given the same franchise. But i

ver, to consider the matter. J. M. Avery spoke in a similar strain and was followed by Captain Roberts in Then Wilbur F. George made an argument for the petition, and further remarks were made pro and con by others present.

The ordinance was then read the second

Mayor Gregory said that, while he wa in favor of anything that would advance the interests of the public and the city, he could not favor the granting of the fran-chise asked unless it was so modified as to preserve the rights of the public. If the Street. Transportation Company would consent to have the proposed franchise so altered that other shippers shall not be kept from the use of the wharf for unreasonable periods and permit the Harbormaster to have ful control of the wharf at all times; and i the term of the lease was reduced, he migh vote to grant it. His desire was to full protect the rights and conveniences of the people, and this being assured, there migh

be no serious objection to granting the Stevens thought the company, if granted the franchise, should be required to pay say \$50 per month for the use of the wharf. Captain Roberts said his company would consent to a reduction in the term of the lease, as asked, and was willing that the city should have control of the wharf. Trustee McLaughlin moved that the ordinance be passed providing that the

term of the lease be reduced from fifteen to Mayor Gregory moved that the franchise be amended so as to provide that one-half the wharf and one slip shall be kept open to the public use at all times and under the seven vears. jurisdiction of the City Board of Trustees.

The principal object for which the meeting was called was to settle the difficulty which has arisen over the appointment of Director George W. Hancock as Superintendent of the coming Sixth District or Los Angeles Citrus Fair. There were pres-Swan, Chase and La Rue.

Chairman Green, in calling the meeting to order, stated that some time ago the to proceed to Los Angeles and see what the trouble was about. "Upon our arrival there," continued the Chairman, "a meeting of the Los Angeles Chamber of Com merce was called, in which we were invited to participate. I made a statement of the State Board's position, announcing that it was not our intention to prevent Los Angeles from managing its own fair and was desirous that a committee of responsible citizens of that city should be appointed to take charge. I explained to them that Mr. Hancock merely represented to the gentlemen who are proposing to the State Board, as the law requires. Mr. Hancock and Mr. LaRue also publishing this explanation, for you are summer when the same can be carried out in a practical manner. No further business spoke at the meeting, corroborating what I had said. Everything seemed to be amicable, and in accordance with my suggestion a committee was then and there appointed to take charge of the fair. We then returned home, but it was not long before I received a communication from before I received a communication from M.R. "I guess they don't want any fair," remarked Director Chase when the Chairman had considered a bid for lighting the glass presented. Mr. LaRue suggested that the only trouble with the Los Angeles people was over the appointment of Hancock. They wanted a man from their own district to superintend the fair, and one who would superintend the fair and superinte be there continuously, and work to make it a success.

"They don't want a Superintendent from this end of the State, that is what is the matter," replied Mr. Chase.

Mr. Hancock stated that when he visited lights required shall be 125, the saving to the company of the company of the saving to the company of th In the fact the regular gymnasium apparatus is insufficient to accommodate them. The applications of a large number of persons for membership were received and approved. Various improvements in the building were also decided upon.

Chairman Green compared Los Angeles with Oroville. "When Oroville was chosen as the place for the Northern Citrus Fair," said he, "its committee went right to work The Horses Recovered.

The matter was, after some discussion, laid over for one week for action.

A number of bills were allowed, including salaries of city officials for the month of December.

A resolution of intention was passed for improving O street, from the east line of Front to the west line of Second.

Bids were received for furnishing supplies for the City Prison from various firms, and were of such confused character that the Board was unable to determine how the contracts should be awarded.

Trustee McLaughlin moved that the Board readverties for bids, each bidder to be required to furnish the particular article for which his bid might be the lowest, the schedule to embrace every article required.

Bauges, December 23d.—Smith and Slavin fought on private grounds, three miles from here. The struggle was for the heavy-weight championship of England. The friends of both parties squabbled from the outset. The Smith party seemed inclined to prevent the meeting and pieced every obstacle it could in the way of bringing the men together.

At the ring-side the proceedings were disgraceful. The ring was finally broken into and the fight declared a draw.

London, December 23d.—The ruffianly conduct of Smith's friends at the rugside has discussed every lover of fair play in the kingdom, and the unjust and cowardly decision of the eferce in declaring to fight a draw instead of diving the stakes to Slavio, who had his many hipped from the start, has added to the exsperation of sporting men. One good result as come from the fight, however, which affords a good deal of consolation. The status of Smith is a fighter is as definitely settled as though he had won the battle easily and fairly, or been airly knocked out, as he certainly would have been had the fight been permitted to go on. the Canadian Question.

London, December 23d.—The Globe, the semiofficial organ of the Government yesterday published a letter approps of the letters by Stanley
Hill, Q. C., and Sir George Baden Powell, M. P.,
in the Times upon the Canadian question, in
which it is pointed out that the Canadians have
a substantial grievance, which only commercial
union with the United States can overcome.
The correspondent also says that the United
States will not have commercial union without
political union, and declares that unless England does something in the matter Canadian
loyalty will not long stand the strain.

The correspondent says: "We lost America
through bullying her. Are we going to lose
Canada because we are now a raid of America?" He concludes: "If we want to keep Canada we must bind her to us by bonds of selfinterest and affection, and it is for us to consider whether we are doing that just at the
present time by our timid, hesitating policy
with regard to the Behring Sea trouble."

Belief that Serious Disturbances are Occurring in the Republic. Lisbox, December 23d.—The banks here are obliged to obtain code telegrams from Brazil by the way of London and laris, and are seriously inconvenienced, finding serious difference between the official and actual commercial rate of exchange, as learned by those two lines. Business men here believe very serious occurrences are taking place in Brazil and are much disquieted in consequence. The rose-colored accounts sent out from Brazil are largely discredited here. Dom Pedro has adhered to the policy of silence.

Libbon, December 23d.—A telegram from Serpa Pinto dated October 15th at Muggurumba telegraph station on Shire river has been received. It reports that the English flag was being hoisted at several places on Portuguese territory, and the natives had raised the English flag opposite the camp of the Portuguese railway surveying party, which had been removed by Major Diaz. On November 9th the Governor of Mozambique wired that Serpa Pinto had requested the natives to lower all foreign flags, and notified them if this request was not complied with the Portuguese would haul them down with honors and send them to Quillimane to be restored to the Consuls there.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."— Mary A. Jackson, Salem, Mass.
"I have used Ayer's Hair Vigor for promoting the growth of the hair, and think it unequaled. For restoring the hair to its original color, and for a dressing, it cannot be surpassed."—Mrs. Geo. La Fever, Eaton Rapids, Mich.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, N. Y.

"Ayer's Hair Vigor is a most excel-lent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair and makes it glossy and soft. The Vigor is also a cure for dandruff."—J. W. Bowen, Editor "Enquirer," McArthur, Ohio. "I have used Ayer's Hair Vigor for the past two years, and found it all it is represented to be. It restores the natural color to gray hair, causes the hair to grow freely, and keeps it soft and pliant."—Mrs. M. V. Day, Cohoes, N. Y.
